2016 - 2017

PESTICIDE APPLICATION NOTIFICATION

New York State Education Law now requires written notification to parents, guardians and staff members regarding the potential use of pesticide periodically throughout the school year.

The Clear View School is required to maintain a list of persons in parental relation, faculty, and staff who wish to receive 48-hour prior written notification of certain pesticide applications. The following pesticide applications are not subject to prior notification requirements:

- a school remains unoccupied for a continuous 72 hours following an application;
- anti-microbial products;
- nonvolatile rodenticides in tamper resistant bait stations in areas inaccessible to children;
- nonvolatile insecticidal baits in tamper resistant bait stations in areas inaccessible to children;
- silica gels and other nonvolatile ready-to-use pastes, foams, or gels in areas inaccessible to children;
- boric acid and disodium octaborate tetrahydrate;
- the application of EPA designated biopesticides;
- the application of EPA designated exempt materials under 40CFR152.25;
- the use of aerosol products with a directed spray in containers of 18 fluid ounces or less when used to protect individuals from an imminent threat from stinging and biting insects including venomous spiders, bees, wasps, and hornets.

In the event of an emergency application necessary to protect against an imminent threat to human health, a good faith effort will be made to supply written notification to those on the 48-hour prior notification list.

Since The Clear View School is committed to an Integrated Pest Management approach, which involves infrequent use of the least toxic pesticides possible, with application during time when school is closed, it is unlikely that we would use pesticides which fall under the 48-hour notification provisions of this law.

However, in the event that we must use such a pesticide at any time in the future, please return the attached form.

Please feel free to contact George Pagnotta at the school, 941-9513, for further information on these requirements.
