

GUIDELINES FOR MANAGEMENT OF POSSIBLE COVID-19 OR COVID ON CAMPUS

1. If you are experiencing any feeling of illness, stay home.
2. Be symptom free for 24 hours before returning, without taking medication to reduce fever.
3. If you have had close contact (as per CDC definition) with someone who is or becomes known to be COVID positive, get a COVID test. If your test is positive, you will follow DOH protocols, quarantine for 14 days, and be symptom free for 24 hours before returning.
4. If you test positive for COVID in any circumstance, the above applies
5. If an individual tests positive for COVID and has been on grounds, contact tracing will be done to assess need for
 - a. disinfecting/deep cleaning
 - b. areas of program needing change from hybrid to remote services, and
 - c. notification to students and staff to obtain COVID testing and to quarantine.
