

**Clear View School Summer Program
2021
Covid-19 Mitigation Protocols**

Working with the up to date and changing guidances from CDC, SED, and NYS and local Health Departments, we have changed some of our protocols for the Summer Program, which will apply to all staff, students, families, visitors, and others on grounds. We will continue to require the daily Health Assessment Protocol for any presence on grounds. Any covid testing for any reason should be reported as is done currently, and vaccination status should be reported to Dr. Haagen and Nancy Simpson. We will assess safety of protocol changes, and continue to look for ways to remove restrictions as information indicates that is safe.

Changes are primarily related to the increased safety to the environment due to covid vaccination.

Persons who are fully vaccinated may go without masks when outside.

Unvaccinated persons will still be required to wear masks inside and outside.

Any classroom in which all persons are vaccinated do not have to wear masks. When moving through any of the buildings, masks must be worn.

If there is a mix of vaccinated and unvaccinated persons in a classroom, masks must be worn by all persons.

If cohorts are mixed in any activities, inside or outside, the same requirements apply, that is, cohorts that are vaccinated do not have to mask, cohorts that are not entirely vaccinated must mask.

Masks do not have to be worn for water activities outside.

For hiking and biking activities vaccinated persons do not need to wear masks. If not vaccinated, persons must wear masks.

For Uno Club, vaccinated persons, masks not required; unvaccinated, masks required. Cohorts can be mixed. Hand sanitizing.

Music will be outdoors. Cohorts can be mixed. Vaccinated, masks not required; not vaccinated, masks required. For singing and wind instruments, social distancing can replace mask wearing.

Movies -50 persons maximum in auditorium. Vaccinated cohorts can sit together without social distancing; unvaccinated cohorts must social distance. If whole cohort is vaccinated, masks can be removed. Unvaccinated cohorts must wear masks, may sit together with masks on, and no social distancing required. Vaccinated students from different cohorts can sit together without masks. No food or drink.

Barbeques are to be prepared by designated staff with tray delivery to classroom group. One designated teacher will distribute.

Water coolers will be activated with a water cooler protocol available.

Use of the blacktop is open for classes; mixing of cohorts can take place if everyone is vaccinated; if not masks are required.
